Curriculum Vitae

Goals

To be able to merge my creative side with my logical one to create engaging, useful and accessible applications for the end-user. To be able to take responsibility of the design of systems and as a team solve problems and transform ideas into solutions.

Work experience

- 2012- **SentzLab, mobile development, Moscow, Russia**
Mobile client development.
- Senior developer for iOS applications (Objective C)
- Unity programming (C#)
- 2010-2012 **ÅF, consultant, Stockholm**
System developer, fleet maintenance system.
- Web portal, test-driven development (C#, ASP.net, SQL)
- Windows authentication software (C#, WPF, WCF)
- Pre-study of document management systems
- 2009-2010 **Saab Security, Stockholm**
System analyst/developer, surveillance- and security system.
- Development of id card designer (C#, WPF, SQL, XML)
- System architecture, integration analysis of sub-systems
- Customers point of contact for access control system
- Architecture of computer hardware platform
- 2006-2008 **Saab Communication, Stockholm**
System analyst, contact center- and monitoring system.
- Pre-study, initial system design, work with offer.
- System design, communications platform with telephony, radio, IVR, unified recording. Responsible for radio systems integration.
- SCRUM-based work
Separate projects
- Pre-study, design of integrated communication systems
- Simulation software for mobile ad-hoc networks using Matlab
- Simulation software for soft error in SRAM. C++, SSE and MPI.
- 2003-2004 **Tillbergaskolan, Västerås**
- Substitute teacher, natural sciences and mathematics, years 7-9
- 2000-2001 **Freelance graphics designer**
- Freelance work and work on location in Ft. Lauderdale, USA

Development skills

C#	Strong skills, work, education, private projects
Objective C	Strong skills, work, private projects, education
SQL	Strong skills, work, private projects, education
PHP	Strong skills, private projects
C++	Strong skills, work, private projects, education
HTML/CSS/Js	Strong skills, work, private projects, education
JUnit	Good skills, work, private projects
Java	Good skills, private projects, education
VB.net	Good skills, work
Methodology	Scrum, Kanban, Test-driven development (TDD)

Computer skills

Architecture	UML using Enterprise Architect, Rational Rose, Poseidon
IDE	Visual Studio, Xcode, Eclipse, NetBeans
Versioning	Git, Subversion, Perforce, Sharepoint
Project	Enterprise Architect, Microsoft Project, Telelogic Doors
Office	Word, Excel, PowerPoint, Visio, Access, LibreOffice

Education

2011	iOS app and game development, Luleå Technical University
2006	Thesis work, Saab Communication, Linköping Simulation of soft errors in SRAM
1999-2006	Engineer, applied mathematics, Mälardalens Högskola, Västerås Studies primarily in mathematics, computing and computer sciences. Final year focused on development, software engineering and system design
1996-1999	Natural sciences, Rudbeckianska Gymnasiet, Västerås

Languages

Swedish	Mother tongue
English	Strong reading, writing and conversation skills
German	Good reading comprehension and basic conversations
Russian	Basic conversations and reading, learning

Other merits

2011-	Web design/development, PHP, CodeIgniter, Yii, WordPress
2005	Embedded programming, biometric safe, C on PIC-processor
2002-2004	Windows development in C++, open source project, LiteStep
2000-2001	PHP and MySQL development, personal web pages
1999-2002	Graphics designer, working in Photoshop
